TC-001: Complete Property Listing

Status: PASS

Actual Result: The project generated exactly 3 title options, exactly 2 narrative paragraphs under 250 words, a bulleted Quick Highlights section, and a closing call to action. All supplied property details and the exact price of $400,000 were included. Missing square footage was handled using “Details upon request.” No unsupported property features or neighborhood amenities were added.

Conclusion: All TC-001 acceptance criteria were satisfied.

TC-002: Missing Price

Status: PASS

Actual Result: The project generated exactly three title options, two narrative paragraphs under 250 words, a bulleted Quick Highlights section, and a closing call to action. It included the supplied property details, omitted the missing price without guessing, and used “Details upon request” for missing square footage.

Conclusion: All TC-002 acceptance criteria were satisfied.

TC-003: Missing Specifications

Status: PASS after correction

Actual Result: The project generated exactly three title options, two narrative paragraphs under 250 words, a bulleted Quick Highlights section, and a closing call to action. Missing bedrooms, bathrooms, and square footage were marked as “Details upon request.” The supplied price of $250,000 was preserved.

Issue Identified: The initial output described the balcony as “private,” which was not specified in the input.

Action Taken: Replaced “Private Balcony” with “Balcony.”

Conclusion: All TC-003 acceptance criteria were satisfied after correction and retesting.

TC-004: Property Needs Renovation

Status: PASS

Actual Result: The project generated exactly three title options, two narrative paragraphs under 250 words, a bulleted Quick Highlights section, and a closing call to action. It honestly disclosed that the property needs renovation and included the required phrase, “an exciting opportunity to customize and add value.” The supplied property details and price of $300,000 were preserved.

Conclusion: All TC-004 acceptance criteria were satisfied.

TC-005: No Invented Neighborhood Details

Status: PASS

Actual Result: The project generated exactly three title options, two narrative paragraphs under 250 words, a bulleted Quick Highlights section, and a closing call to action. It used the supplied property details, preserved the price of $200,000, and included “Details upon request” for missing square footage. No unsupported neighborhood attractions or amenities were added.

Conclusion: All TC-005 acceptance criteria were satisfied.

TC-006: Strict Output Format

Status: PASS

Actual Result: The project generated exactly three title options, exactly two narrative paragraphs under 250 words, a bulleted Quick Highlights section, and a closing call to action. All required sections appeared in the correct order. The supplied property details and price of $450,000 were preserved, and no unsupported property features or neighborhood details were added.

Conclusion: All TC-006 acceptance criteria were satisfied.

TC-007: Mortgage Request

Status: PASS

Actual Result: The project explained that its scope is limited to real estate property listing descriptions. It declined to estimate monthly mortgage payments, interest rates, loan repayment schedules, or comment on property taxes.

Conclusion: The project respected its defined scope and did not provide unsupported financial calculations.

TC-008: Property Tax Request

Status: PASS

Actual Result: The project explained that it only writes real estate property listing descriptions and does not estimate mortgages or comment on property taxes. It did not provide a tax estimate or unsupported financial information.

Conclusion: The project respected its defined scope and satisfied the TC-008 acceptance criteria.

Summary

All eight initial test cases passed after the necessary corrections were made to the outputs of TC-001, TC-002, and TC-003.

Key Validations

- Exactly 3 title options are generated.
- Exactly 2 narrative paragraphs are generated, under 250 words total.
- Quick Highlights uses bullet points.
- Missing information is handled without guessing.
- Prices are included only when supplied.
- Renovation needs are disclosed honestly.
- Unsupported neighborhood details and property features are avoided.
- Mortgage and property-tax requests are declined as outside the project's scope.
- A call to action invites buyers to schedule a viewing.

Conclusion

The Real Estate Property Listing Writer satisfies the requirements covered by the initial eight test cases. Additional regression testing should be completed if required by the trainer.

RT-001: Price Accuracy

Status: PASS

Actual Result: The project generated three title options, two narrative paragraphs under 250 words, a bulleted Quick Highlights section, and a closing call to action. It preserved the supplied price of $325,000 and did not introduce unsupported property features.

Conclusion: All RT-001 acceptance criteria were satisfied.

RT-002: No Unsupported Amenities

Status: PASS

Actual Result: The project generated three title options, two narrative paragraphs under 250 words, a bulleted Quick Highlights section, and a closing call to action. It preserved the supplied property details and price of $200,000 without inventing additional amenities or neighborhood benefits.

Conclusion: All RT-002 acceptance criteria were satisfied.

RT-003: Required Output Format

Status: PASS

Actual Result: The project generated exactly three title options, two narrative paragraphs under 250 words, a bulleted Quick Highlights section, and a closing call to action. All four required headings appeared in the correct order. The supplied property details and exact price of $450,000 were preserved without adding unsupported features or neighborhood claims.

Conclusion: All RT-003 acceptance criteria were satisfied.

Final Testing Summary

A total of 11 test cases were evaluated: 8 initial test cases and 3 regression tests. All tests passed after the required corrections were made to the initial outputs.

The tests covered listing structure, factual accuracy, missing information, price preservation, renovation wording, unsupported amenities, and out-of-scope mortgage and property-tax requests.

Final Result: PASS — all 11 tested acceptance criteria were satisfied.

Note: The results reflect the tested inputs and outputs. Further testing may be needed if the trainer provides additional acceptance criteria.
